Steve Wragg (SW) provided an update on the planning application for the flood alleviation scheme and outlined how the objections from Sport England had been resolved and the application was due to go to Planning Committee on 12th December. Councillors expressed support for the scheme, queried at what point of the process the compensation for loss of open space land would begin and stressed that the Parish council did not wish this aspect to hold up the scheme in any way. SW believed that the compensation aspect would be dealt with after this initial planning stage as part of the legal process and there was no indication at this stage if the compensation would be in the form of replacement land or monetary value for the land. The Clerk advised that a budget for legal services and land valuation in relation to the transfer of land and the resulting compensation should be included in the 2024/2025 budget. Councillors thanked SW for taking the time to attend the meeting and the useful information.

Cllr. Ravilious reported that the shop will be opening in the new year (Budgens/Londis), but the bus route is still going to take some time to progress.

It was noted that the main discussion considered the parish field, extension land and s.106 funding. It was noted that it was likely to take several months to resolve the legal matters between CoYC and Persimmon to prevent the prospect of the Parish council becoming a party to future deeds of variation at the development. However, the Committee Chair urged them to resolve the legal matters in time for the next meeting which is due to be held in three months.

Cllr. Ravilious reported that she had liaised with the CoYC officers working on the project with a view to working with an academic who specialises in methods for inclusive access to open spaces to consider how the field can be best used by all the different people using it. This work is to be carried out whilst the legal issues are being resolved so should not result in additional delays.

It was further noted that it was not possible to accurately forecast the income.
